

**Journal for Clinical Studies** – Published bi-monthly.

**JCS** is a unique journal, dedicated to providing information to the global pharmaceutical, biotechnology, medical devices and contract research organisations.

**JCS** details practical and theoretical operational procedures, challenges, validity and regulatory guidelines when conducting trials on a multisite basis and particularly within the emerging markets, naïve patient population, and remote access areas.

**JCS** provides country by country objectives and uniquely brings you experiences in therapeutic areas of Liver diseases, kidney diseases, insect borne diseases, malnutrition and under nutrition.

**JCS** is led by a strong editorial advisory board sourced out for their experiences; you will get the most practical insight for your global studies.

**JCS** invites you to join us, write for us, feature your experiences with us, advertise your capabilities with us, and ask our advisory board for suggestions and guidelines.

Let us make health care available to all.
